

Screenshot:

The screenshot shows a Windows command prompt window titled "C:\Windows\System32\cmd.exe". The window displays the output of compiling and running a Java program. The compilation command is `javac InvalidTransactionException.java BankAccount.java Main.java`. The execution command is `java Main`. The output shows a series of transactions: a deposit of 600.5, followed by several withdrawals and transactions that result in exceptions (Negative amount not allowed, Insufficient balance, Invalid number format). The final current balance is 550.5.
